Professional Objective

Experienced Android Developer with a strong foundation in Kotlin and Android Jetpack. Seeking a challenging role to leverage my technical skills and contribute to innovative projects within a collaborative environment that encourages continuous learning and growth.

Education

- Bachelor's Degree in Business Administration
  UNIFACS, Bahia, Brazil — *2022*

Professional Experience

Android Developer Semi Sr
Beyond, Buenos Aires | July 2021 – Present

- Developed Android applications using Kotlin and Android Jetpack components, including ViewModel, LiveData, and Room.
- Collaborated on projects for Banco BTG Pactual, involving high-impact bug fixes, feature implementation, and API integration with Retrofit.
- Utilized Kotlin Coroutines for asynchronous programming and Koin for dependency injection.
- Promoted from Junior to Semi Sr Developer in March 2024, recognized for effective teamwork and problem-solving under pressure.

Mobile Development Intern
Livefarm, Remote | March 2021 – July 2021

- Contributed to mobile app development using Flutter and Firebase Firestore for data management.
- Gained hands-on experience in a team-based environment, applying agile methodologies for project delivery.

Professional Experience

Library Volunteer
Municipal Library of Miguel Calmon, Bahia, Brazil | 2010

- Assisted with organizing and shelving books, ensuring that all materials were properly categorized and accessible to the citizens.

- Digitally categorized and cataloged books, ensuring accurate records and easier access for library patrons and staff.

Core Competencies

- Strong team player with excellent communication skills
- Skilled in agile development and collaboration in fast-paced environments

Community Involvement

Member
DeMolay Order, Salvador, Bahia, Brazil /Chapter Liberdade, Nº163 | 2013

- Organized and participated in philanthropic events and community service projects, supporting causes such as charity fundraisers and donation of educational, cleaning material, food and toys to foster homes.
- Developed leadership and teamwork skills through planning and executing charity initiatives with fellow members.
- Volunteered 32 hours per month, demonstrating commitment to community service and helping to foster a positive impact within the community.

Technical Skills

- Programming Languages: Kotlin, Java, Dart, JavaScript.
- Frameworks & Tools: Android Jetpack (ViewModel, LiveData, Room, Navigation, Paging), Jetpack Compose, Flutter.
- WEB Technologies: HTML, CSS.
- Databases: Firebase (Firestore, Authentication), Back4App
- Libraries: Retrofit, Koin, Hilt, Kotlin Coroutines

Technical Skills

- Portuguese (Native)
- Spanish (Advanced)
- English (Intermediate)
- Japanese (Basic)
